## Instructions:

1. **Top and Bottom Heart:** Die cut 1 white, 1 Lovely Lipstick and 1 All My Love DSP.
2. Use your glue to layer the white on bottom, then the Lovely Lipstick then the DSP on top.
3. **Bottom Box:** Cut a strip of Lovely Lipstick cardstock 8-1/2" x 1-1/4", score on short side 1/4" and then on the long side score at 2-1/2", 5", and 7-1/2". Burnish all folds.
4. Take your glue and adhere the ends together. Then place glue on the 1/4" side and carefully place on top of the bottom heart you just made.
5. **Top Heart:** Die cut 1 Lovely Lipstick and 1 All My Love DSP.
6. Glue these together with DSP as the Top layer.
7. Die cut your detailed heart and attach to layer. For the small heart, the paper we used was the All My Love DSP, specifically the one with the big hearts. We die cut a small heart of that big heart.
8. Pop the small hearts up on dimensionals.
9. Stamp your saying in Lovely Lipstick.
10. Stamp the Multi heart stamp in Lovely Lipstick then stamp once, twice on scrap paper then stamp a third time over the saying and with out reinking. Stamp one more time. This is 3<sup>rd</sup> and 4<sup>th</sup> generation stamping. Pop that on dimensionals and adhere to top heart.
11. **Top Box:** Cut a strip of Lovely Lipstick cardstock 8-1/2" x 1-3/8", score on long side 2-5/8", 5-1/8", 7-5/8" then score on short side 1/4".
12. Glue ends together. Place this piece over the top of the bottom to create an open box and leave here for now. \*\*\*You need to make sure the 1/4 is at the top side so we can glue the top heart to this.
13. Place glue on 1/4" part of the top box and carefully line up your top heart while lining it up with the bottom heart so this sticks to the top box, hold for a while.
14. Pull the top off and fill with your favorite candy or item!
